Context

The European Democracy Consulting Stiftung (hereafter, “the foundation”) was created at its founding meeting on 23 June 2023, and was subsequently registered with Austrian authorities on 26 July.

In August 2023, the Board appointed, Mr Maxime Drounau and Mr François-Régis Drounau as auditors of the foundation for the financial year 2023. They subsequently submitted audit report for the financial years 2023 and 2024.

In 2025, as in preceding years, the foundation received financial donations, as well as in-kind contributions and free services, to carry out its activities.¹

With regards to in-kind contributions and free services, the foundation continued to receive free IT services from European Democracy Consulting, including hosting services, domains names, etc., and also received VPS access from VPSBG, an IT service provider from Bulgaria.

¹ In 2025, donations were made directly. In previous years, they were also made via the crowdfunding platform BetterPlace.org, based in Germany. This crowdfunding was enabled by the Maecenata Stiftung, also located in Germany, which has a partnership with BetterPlace.org, whereby the Maecenata Stiftung collects donations made via BetterPlace.org and transfers them to charitable entities abroad, such as the foundation. This process is required, as BetterPlace.org can otherwise only broadcast projects of non-profit organisations registered in Germany.

Conversely, the foundation incurred expenses linked to its operations, mostly in relation to the contract signed in 2023 with TULP Interactive for the further development of the European Party Funding Observatory (EPFO, Phase 2), which led to issues being fixed and to two pillars of work being actively worked on throughout 2025. As of end of 2025, work continues on those two pillars.

These income and expenses are detailed in the sections below.

All financial transactions were carried out using the bank account of the foundation, held by Bank Austria.

Income and expenses

Income

In the financial year 2025, the income received by the foundation stemmed exclusively from private sources. This income was made up of financial donations and in-kind contributions and free services, for a total amount of €2,808.40, which is slightly less than in 2024.

Type of income	2025	Share	2024
Donations	€2,000.00	71.2%	€3,487.40
In-kind contributions and free services	€808.40	28.8%	€183.42
Business income	€0.00	0.0%	€18.70
Total	€2,808.40		€3,689.52

Donations

This year, the foundation only received financial donations from legal entities, for a total amount of €2,000.00.

Origin of donations	2025	Share	2024
Private individuals	€0.00	0.0%	€484.00
Legal entities	€2,000.00	100.0%	€3,003.40
Total	€2,000.00		€3,487.40

In February 2025, the foundation received a financial donation of €2,000.00 from Volt There, a political foundation based in the Netherlands. This donation had been pledged in 2024 and marked as accounts receivable in last year's financial statement. It was earmarked for the development of the EPFO's Phase 2 and wired directly to the foundation's developer.

In October, the foundation placed a payout request for the €3.40 remaining on the BetterPlace platform to our bank account, via the Maecenata Stiftung.² Fees from the Maecenata Stiftung applied to this withdrawal.

Fundraising efforts for the EPFO's Phase 2 continue.

² As indicated in the "Expenses" section, a fee of €0.17 was applied by the Maecenata Stiftung.

In-kind contributions and free services

The foundation received in-kind contributions and free services for a total amount of €808.40.

EDC	WordPress Hosting Basic (via Strato)	€108.90	13.5%	€108.90
EDC	SSL certificates (via Strato)	€36.30	4.5%	€33.28
EDC	Domain names (via Strato)	€24.20	3.0%	€29.24

Total		€808.40		€183.42

The value of free services is calculated “at arms’ length”, as if the foundation had had to incur these costs by itself.

In-kind contributions and free services provided by European Democracy Consulting comprised:

- Online hosting for the website of the foundation, EPFO, and EuropeanConstitution.eu (via Strato): €9.08 x 12 = €108.90;
- SSL certificates (via Strato): €3.03 x 12 = €36.30;
- Online storage (via Strato): free with hosting package; and
- Three domain names (via Strato): €24.20;
 - edcstiftung.eu: inclusive with hosting package;
 - epfo.eu: €1.01 x 12 = €12.10;
 - europeanconstitution.eu: €1.01 x 12 = €12.10; and
- CDN services (via BunnyCDN): €1.00 x 12 = €12.00.³

In addition, the foundation started receiving free access to a VPS by VPSBG, as of mid-October:

- VPS: €250.80 x 2.5 = €627.00.

Categorisation of income

By law, the foundation is required to list, in its statutes, its potential sources of income. Article 3.3 lists the following potential sources of income:⁴

1. membership fees and membership dues
2. subsidies and grants
3. donations, collections, legacies and other contributions

³ With an estimate of EUR 1 = USD 1, as BunnyCDN charges in USD.

⁴ As a mere negative business expense, business income derived from reimbursements is exempt from this categorisation.

4. contributions in kind and free services
5. proceeds from foundation events
6. sponsorship money

In line with the information provided above, the income of the foundation can therefore be categorised as follows:

Categories of income	2025	Share	2024
Donations (incl. fees)	€2,000.00	71.2%	€3,487.40
In-kind contributions and free services	€808.40	28.8%	€183.42

1. carrying out research work
2. issuing of publications
3. creation of websites
4. public relations
